This Dino-mite exhibit opens this weekend *Saturday, September 21st*

Take a prehistoric trip to the zoo between September 21st and January 5th and visit some of the most ancient animals ever to walk the earth. These realistic, museum-quality dinosaurs will make you feel like you've traveled back in time while you learn about their many connections to modern animals. Spend some time learning about paleontologists' best assessments of each of our dinosaur species as you read their informative identification signs. Bring your cameras for photo-ops that are fun for all ages! Be sure to take some video, because these life-like dinosaurs are animatronic.

Free with regular zoo [admission](#) or membership.
