

Catch a dino-mite exhibit and Discover the Dinosaurs at the Sac Zoo this weekend before they go extinct!

(Sacramento, CA) -- February 13, 2020 -- Pack up the family and take a prehistoric trip to the Sacramento Zoo this three-day weekend to visit some of the most ancient animals ever to walk the earth. The zoo's Discover the Dinosaurs exhibit, included with zoo admission, will go extinct after Monday, February 17!

These life-like dinosaurs will make you feel like you've traveled back in time while you learn about their many connections to modern animals. Spend some time learning from paleontologists' best assessments of each featured dinosaur species as you read their identification signs. Bring your cameras for photo-ops that are fun for all ages! Be sure to take some video as well, because these realistic replicas are animatronic.

This dinosaur exhibit is included with zoo admission through February 17th. Guests are encouraged to visit this weekend before the Sac Zoo's dinos go extinct!

###

Open since 1927, the Sacramento Zoo is home to nearly 500 native, rare and endangered animals and is one of more than 200 accredited institutions of the Association of Zoos and Aquariums. The Sacramento Zoo, managed by the nonprofit Sacramento Zoological Society, inspires conservation awareness and action through education and recreation. Daily admission is from 9 a.m. to 4 p.m., zoo grounds are open until 5 p.m. General admission is \$17.50; children ages 2- 11 are \$12.50 and children one and under are admitted free. For information, call 916-808-5888 or visit saczoo.org.
